Plat & Coag	Vandana Bharadwaj
BM Failure	Santanu Sen

Dear Friends,

As we step in 2021 and look back at the year gone by, we would never cease to be amazed at how our personal and working lives changed. Much has been written on the social and scientific platforms on the effect of the pandemic on the lives of our patients and the common man. Critical to overcoming the last one year has been our ability to be informed, be resilient, adapt and stay positive. Here is wishing each and every one of you a better and safer 2021.

The end of 2020 also marked culmination of six years of InPOG activity (and the completion of terms of two Executives). This is a good time to take stock as we now venture into setting up an independent society and are able to amplify the size, the scope and the reach of our future collaborative work.

Here is where we stand today

- ⇒ 26 Subcommittees
- ⇒ 224 members
- ⇒ 31 studies in portfolio including 23 recruiting or have completed recruitment
- ⇒ 111 unique centres have participated (See map on next page)
- ⇒ 10017 patients recruited
- ⇒ 67.7% patients recruited in observational studies, 30.3% in interventional studies
- ⇒ 5 publications in peer-reviewed journals
- ⇒ 26 international and national presentations

Congratulations to all participating centres, investigators and research staff and our gratitude to all the children and the parents who have so generously participated in research. Importantly, this is just the beginning. Ultimately we need to show improvement in outcomes and quality of life to fulfil the mission of InPOG

Warm wishes,

InPOG Executive, inpogexec@gmail.com

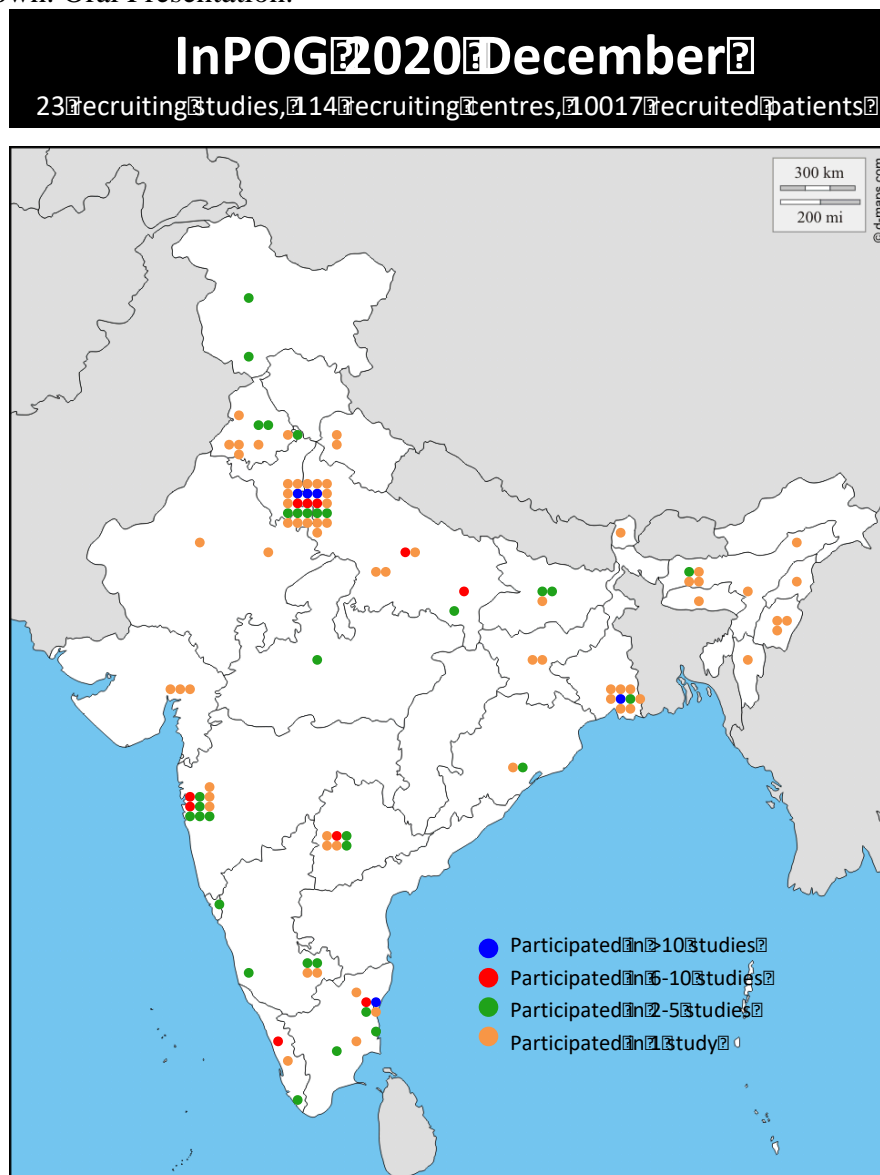

<https://goo.gl/forms/HTUnL6wZyYEVbhHF2> for InPOG membership

InPOG Studies - Recruitment Complete (7)

InPOG-HL-15-01

A collaborative study for newly diagnosed childhood Hodgkin's lymphoma patients in India

Principal Investigator	Prof Jagdish Chandra
Registered with InPOG	June 2015
CTRI Registration	CTRI/2016/03/010916
Patients recruited	410
Recruitment Closed	February 2018
Centers study open in	27 centres

Publications

InPOG NHL-16-01

A Retrospective Multi-centric Study of Contemporary Epidemiology & Outcome of Childhood B-NHL in India

Principal Investigator	Dr Amita Trehan
Registered with InPOG	October 2016

CTRI Registration	No
Patients recruited	323
Recruitment Closed	April 2018
Centers study open in	10 centres

Presentations

- Rahiman EA, Bakhshi S, Pushpam D, Venkatraman R, Das A, Ghara N, Kalra M, Kapoor G, Meena JP, Siddaiahgari S, Thulkar S. A MULTICENTRIC STUDY ON B NON-HODGKIN LYMPHOMA IN INDIA (InPOG-NHL-16-01). PHOCON 2019, Varanasi, Oral Presentation

InPOG-ACC-16-01

Multi-site Prospective Study to Determine Household Out-of-Pocket Expenditure Incurred by Families of Children Newly Diagnosed with Cancer in India (HOPE Study)

Principal Investigator	Dr Ramandeep Singh Arora
Registered with InPOG	August 2016
CTRI Registration	CTRI/2016/11/007492
Patients recruited	402
Recruitment Closed	November 2017
Centers study open in	15 centres

Presentations

InPOG-PNET-16-01

Evaluation of clinicopathological characteristics, prognostic factors and treatment outcomes in patients with PNET of Kidney: An InPOG study

Principal Investigator	Dr Bivas Biswas
Registered with InPOG	June 2016
CTRI Registration	No
Patients recruited	40
Recruitment Closed	August 2018
Centers study open in	2 centres

InPOG-CML-16-01

Study of treatment and outcome of chronic myeloid leukemia in children and adolescents in India

Principal Investigator	Prof Deepak Bansal
Registered with InPOG	Feb 2018
CTRI Registration	No
Patients recruited	171
Recruitment Closed	January 2019
Centers study open in	9 centres

Presentations

- S Totadri, A Mahajan, V Gupta, A Das, JP Meena, M Singh, S Mohammed, P Aggarwal, S Tuladhar, R Seth, S Naseem, N Varma, A Trehan, D Bansal. Treatment and Outcome of Chronic Myeloid Leukemia in Children and Adolescents: The Indian Pediatric Oncology Group (INPOG) CML-16-01 Multicentric Study. SIOP 2019, Kyoto, Poster presentation

Treatment and outcome of chronic myeloid leukemia in children and adolescents: The Indian Pediatric Oncology Group-CML-16-01 multicentric study. European Hematology Association 2019 Poster presentation
- S Totadri, A Mahajan, V Gupta, A Das, JP Meena, M Singh, S Mohammed, P Aggarwal, S Tuladhar, R Seth, S Naseem, N Varma, A Trehan, D Bansal. Treatment and outcome of chronic myeloid leukemia in children and adolescents: The Indian Pediatric Oncology Group-CML-16-01 multicentric study, PHOCON 2019, Varanasi, Oral presentation

InPOG-AML-16-01

Randomized Phase III Study Comparing DA (3+7) Versus ADE as Induction Chemotherapy in children with Acute Myeloid Leukemia

Principal Investigator	Dr Venkatraman Radhakrishnan
Registered with InPOG	April 2016
CTRI Registration	CTRI/2014/11/005202
Patients recruited	150
Recruitment Closed	Nov 2019
Centers study open in	5 centres

InPOG Studies - Recruitment Ongoing (16)

InPOG-ALL-15-01

An Indian Childhood Collaborative Leukemia Group multicentre national standardization study for newly diagnosed acute lymphoblastic leukemia

Principal Investigator	Prof Vaskar Saha
Registered with InPOG	July 2015
CTRI Registration	CTRI/2015/12/006434
Recruitment commenced	Oct 2016
Currently patients recruited	2436
Target patient recruitment	3056
Centers study open in	5 centres

- All India Institute of Medical Sciences, New Delhi
- Cancer Institute, Chennai
- PGIMER, Chandigarh
- Tata Medical Centre, Kolkata
- Tata Medical Centre, Mumbai

Presentations

- Sidhu J, Saha D, Roy P, Banerjee M, Paul P, Samaddar S, Basu A, Saha V, Krishan S. Therapeutic drug monitoring informs asparaginase dose scheduling in the InPOG-ALL-15-01-ICiLe-ALL-14 trial. PHOCON 2017, Kolkata, Oral presentation
- Roy P, Narula G, Arora B, Bakhshi S, Trehan A, Radhakrishnan V, Seth R, Arora R, Das M, Sinha S, Tembhare P. Implementation of risk adapted therapeutic strategy for childhood acute lymphoblastic leukaemia—interim report of the pilot InPOG-ALL-15-01 study. PHOCON 2018, Bangalore, Oral presentation

InPOG-LE-16-01

The Indian Childhood Cancer Survivorship Study (C2S study): After treatment completion registry of childhood cancers – Phase 1

Principal Investigator	Dr Rachna Seth
Registered with InPOG	May 2016
CTRI Registration	Not done
Recruitment commenced	June 2016
Currently patients recruited	1801
Target patient recruitment	At least 500 (desirable 1000)
Anticipated duration of recruitment	5 years (Project extended till 2025)
Centers study open in	16 centres

- All India Institute of Medical Sciences, New Delhi
- Apollo Hospital, Chennai
- Banaras Hindu University, Varanasi
- Cancer Institute, Chennai
- Indraprastha Apollo Hospital, New Delhi
- Kalawati Children’s Hospital, New Delhi

InPOG-RARE-17-02

Indian Childhood Advanced Nasopharyngeal Carcinoma Study (ICANaPS)

A multicenter, prospective, pilot study on use of platinum-based chemotherapy for pediatric nasopharyngeal carcinoma and exploration of the role of plasma Epstein-Barr virus (EBV)-DNA PCR titers in predicting relapse

Principal Investigator	Dr Anirban Das
Registered with InPOG	October 2018
CTRI Registration	
Recruitment commenced	Yes
Currently patients recruited	2
Target patient recruitment	50
Anticipated duration of recruitment	5 years
Centers study open in	1

- Tata Medical Centre, Kolkata

InPOG-RARE-17-01

Clinical Course, Pathological Spectrum and Outcomes in Paediatric Rare Tumours in India: A Multicentric Observational Study

Principal Investigator	Dr Maya Prasad
Registered with InPOG	July 2017
CTRI Registration	CTRI/2019/02/017851
Recruitment commenced	Yes
Currently patients recruited	124
Target patient recruitment	250
Anticipated duration of recruitment	3 years
Centers study open in	10 c
